# Survey of School Teachers' Views on Online Learning and Student Mental Wellbeing amid Covid-19 Related School Adaptations 

Hong Kong Survey Report
Jan 2021

## Research Objective

To collect the views of Hong Kong teachers on conducting online teaching and the current overall learning experience of students amid the pandemic and to identify potential problems with online learning and student mental health during school suspensions and Covid-19 related adaptations.

## Key Findings

- School children in Hong Kong are facing an increased risk of inequality in their education experience. This is shown by divergent opinions from teachers on the quality of the learning experience and learning outcomes for students amidst a year of online learning. In addition, an observable inconsistency among teachers in their preferred approaches to grading students may also result in unfair differences in grade results between students from different schools.
- Most teachers ( $68 \%$ ) were unprepared for the shift to online learning with little or no experience teaching virtual classes when the school suspensions began and teaching methods have still not been perfected. More than a third (37\%) report that when supporting learning online they are less able to identify and support the diverse learning needs of students and that students have had more difficulty focusing (44\%) in class for virtual lessons.
- The majority of teachers in our survey said their school has pressing concerns on student mental health but insufficient resources to address them. More than half of surveyed teachers considered student stress (57\%), anxiety (51\%), depression (50\%), and special education needs (64\%) to be a serious concern but cited a lack of availability of mental health professionals in the community (47\%) or resources and training for school staff (49\%) as a barrier to providing the necessary support.

## Methodology and Limitations

This quantitative study includes data from a survey which collected 139 valid responses from persons identifying as either primary or secondary school teachers in Hong Kong between September 21st and December 10th, 2020. The majority of responses were collected between October 26th and November 16th. Responses were collected via an online self-administered survey using a 2 -stage non-probability sampling method with snowball referral. In the first stage a convenience sample of 3 groups of teachers were selected including: teacher's known to Save the Children Hong Kong staff, teachers who are members in a Facebook group for Hong Kong teachers, and teachers who are members in a teacher professional practice support network. In the second stage a voluntary sample was collected from each group, and respondents were encouraged to refer other teachers to complete the survey. The sample is comprised of $67 \%$ from the teacher professional practice support network, $23 \%$ from snowball referrals, $8 \%$ from teachers known to Save the Children Hong Kong staff, and $1 \%$ from the Facebook group for Hong Kong teachers. The characteristics of the composition of these teacher groups are not known and so the population of each group relative to the sample collected from that group in the second stage is irrelevant.

The sample has two notable risks of bias beyond the self-selection bias inherent to voluntary samples. The first evident bias is the higher representation of teachers from government schools in the sample (25\%) relative to the portion of government schools among the school population in Hong Kong ( $10 \%$ ) and a lower portion of teachers from aided schools (41\%) relative to the portion of aided
schools in Hong Kong school population (80\%). Teachers from private schools are also slightly overrepresented in the sample ( $23 \%$ ). The second notable risk of bias is that respondents were not asked to identify which school they are employed by in the interest of privacy, and so the sample may be biased by containing responses from multiple teachers who are employed by the same school and therefore have common experiences. This systemic selection bias was anticipated and accepted by the researchers as the sample is not intended to be representative of the study population. This sampling method was chosen in order to constrain the costs of the study and to offer only a highlight of outstanding sentiments, common experiences and perspectives among teachers and sub-groups of teachers contained in the sample.

## Survey Results

Collected information will help us understand the needs of children and how we can further make suggestions to the government and other stakeholders on how to support the well-being and learning of children and young people. The survey will require about 5 minutes for completion. Your participation in this survey is voluntary and no incentive or rewards will be given after completion. Please rest assured that all information and responses will be kept in strict confidence and will only be used for research purposes, while no personal data is collected. Do you agree to participate in this survey?

| Value | Percent | Count |
| :--- | :--- | :--- |
| I understand and agree to <br> participate. | $100.0 \%$ | 139 |
|  | Totals | 139 |

1. How would you describe the overall online learning experience of students during coronavirusrelated school suspensions?

| Value | Percent | Count |

14. Which of the following do you think your school or the EDB should consider to address potential learning loss when students return to schools? (select all that apply)

| Extended school days in the 2020-2021 school year | $21.6 \%$ | 29 |
| :--- | :--- | :--- |
| Cancel school holidays in the 2020-21 school year | $8.2 \%$ | 11 |
| None of the above | $4.5 \%$ | 6 |

15. Gender

| Value | Percent | Count |
| :--- | :--- | :--- |
| Male | $26.8 \%$ | 37 |
| Female | $52.2 \%$ | 72 |
| Prefer not to say | $21.0 \%$ | 29 |
|  | Totals | 138 |

16. Which of the following best describes your status?

| Value | Percent | Count |
| :--- | :--- | :--- |
| Junior Primary school teacher <br> (P1-P3) | $19.6 \%$ | 27 |
| Senior Primary school teacher <br> (P4-P6) | $29.0 \%$ | 40 |
| Junior Secondary school <br> teacher (S1-S3) | $26.8 \%$ | 37 |
| Senior Secondary school <br> teacher (S4-S6) | $24.6 \%$ | 34 |
|  | Totals | 138 |

17. Which type of school are you teaching?

| Value | Percent | Count |
| :--- | :--- | :--- |
| Government school | $25.0 \%$ | 31 |
| Aided schools | $41.1 \%$ | 51 |
| Direct Subsidy Scheme (DSS) <br> schools | $10.5 \%$ | 13 |
| Private schools | $13.7 \%$ | 17 |
| Private international schools | $9.7 \%$ | 12 |
|  | Totals | 124 |

## Cross-tabulation graphs by themes

## Future of e-learning

2. How would you describe the overall online learning experience of students during coronavirusrelated school suspensions? (segmented by primary and secondary school teachers)

| Segment | Value | Percent | Count | \% of Total |
| :--- | :--- | :--- | :--- | :--- |
| Primary School | Very good | $3 \%$ | 2 | $1.4 \%$ |
|  | Good | $25.4 \%$ | 17 | $12.3 \%$ |
|  | Fair | $40.3 \%$ | 27 | $19.6 \%$ |
|  | Poor | $28.4 \%$ | 19 | $13.8 \%$ |
|  | Worst | $3 \%$ | 2 | $1.4 \%$ |
|  |  |  |  |  |

| Secondary | Very good | $1.4 \%$ | 1 | $0.7 \%$ |
| :--- | :--- | :--- | :--- | :--- |
|  | Good | $14.1 \%$ | 10 | $7.2 \%$ |
|  | Fair | $46.5 \%$ | 33 | $23.9 \%$ |
|  | Poor | $36.6 \%$ | 26 | $18.8 \%$ |
|  | Worst | $1.4 \%$ | 1 | $0.7 \%$ |

6. Compared to attending online classes, which best describes current status of each of the following since school has officially resumed? (segmented by primary and secondary school teachers)

|  | Much <br> better <br> than <br> during <br> school <br> suspension | Somewhat <br> better <br> than <br> during <br> school <br> suspension | About the <br> same as <br> during <br> school <br> suspension | Somewhat <br> worse <br> than <br> during <br> school <br> suspension | Much <br> worse <br> than <br> during <br> school <br> suspension | Responses |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

| Row \% |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Learning quality and outcomes |  |  |  |  |  |  |
| Primary School Count Row \% | $\begin{aligned} & 1 \\ & 1.7 \% \end{aligned}$ | $\begin{aligned} & 16 \\ & 26.7 \% \end{aligned}$ | $\begin{aligned} & 15 \\ & 25.0 \% \end{aligned}$ | $\begin{aligned} & 26 \\ & 43.3 \% \end{aligned}$ | $\begin{aligned} & 2 \\ & 3.3 \% \end{aligned}$ | 60 |
| Secondary Count Row \% | $\begin{aligned} & 4 \\ & 6.3 \% \end{aligned}$ | $\begin{aligned} & 11 \\ & 17.2 \% \end{aligned}$ | $\begin{aligned} & 27 \\ & 42.2 \% \end{aligned}$ | $\begin{aligned} & 19 \\ & 29.7 \% \end{aligned}$ | $\begin{aligned} & 3 \\ & 4.7 \% \end{aligned}$ | 64 |

| Secondary Count Row \% | $\begin{aligned} & 1 \\ & 1.6 \% \end{aligned}$ | $\begin{aligned} & 13 \\ & 20.3 \% \end{aligned}$ | $\begin{aligned} & 37 \\ & 57.8 \% \end{aligned}$ | $\begin{aligned} & 10 \\ & 15.6 \% \end{aligned}$ | $\begin{aligned} & 3 \\ & 4.7 \% \end{aligned}$ | 64 |

## Inequality in e-learning

2. How would you describe the overall online learning experience of students during coronavirusrelated school suspensions? (segmented by school type)

| Segment | Value | Percent | Count | \% of Total |
| :--- | :--- | :--- | :--- | :--- |
| Government <br> School | Very good | $3.2 \%$ | 1 | $1 \%$ |
|  | Good | $16.1 \%$ | 5 | $5.1 \%$ |
|  | Fair | $67.7 \%$ | 21 | $21.2 \%$ |
|  | Poor | $12.9 \%$ | 4 | $4 \%$ |
| Worst | $0 \%$ | 0 | $0 \%$ |  |
| Aided school | Very good | $3.9 \%$ | 2 | $2 \%$ |
|  | Good | $11.8 \%$ | 6 | $6.1 \%$ |

|  | Fair | $37.3 \%$ | 19 | $19.2 \%$ |
| :--- | :--- | :--- | :--- | :--- |
|  | Poor | $43.1 \%$ | 22 | $22.2 \%$ |
|  | Worst | $3.9 \%$ | 2 | $2 \%$ |
| Private School | Very good | $0 \%$ | 0 | $0 \%$ |
|  | Good | $23.5 \%$ | 4 | $4 \%$ |
|  | Fair | $47.1 \%$ | 8 | $8.1 \%$ |
|  | Poor | $29.4 \%$ | 5 | $5.1 \%$ |
|  | Worst | $0 \%$ | 0 | $0 \%$ |

3. Before the coronavirus outbreak, how much experience did you personally have with e-learning? (segmented by school type)

| Segment | Value | Percent | Count | \% of Total |
| :--- | :--- | :--- | :--- | :--- |
| Government <br> School | A great deal of <br> experience | $3.3 \%$ | 1 | $1.1 \%$ |
|  | Some experience | $33.3 \%$ | 10 | $11.1 \%$ |
|  | Not very much <br> experience | $46.7 \%$ | 14 | $15.6 \%$ |
|  | No experience at <br> all | $16.7 \%$ | 5 | $5.6 \%$ |
| Aided school | A great deal of | $0 \%$ | 0 | $0 \%$ |
| experience |  | 7 | $7.8 \%$ |  |
|  | Some experience | $15.6 \%$ | 7 |  |

|  | Not very much <br> experience | $64.4 \%$ | 29 | $32.2 \%$ |
| :--- | :--- | :--- | :--- | :--- |
|  | No experience at <br> all | $20 \%$ | 9 | $10 \%$ |
| Private School | A great deal of <br> experience | $0 \%$ | 0 | $0 \%$ |
|  | Some experience | $53.3 \%$ | 8 | $8.9 \%$ |
|  | Not very much <br> experience | $33.3 \%$ | 5 | $5.6 \%$ |
| No experience at <br> all | $13.3 \%$ | 2 | $2.2 \%$ |  |
|  |  |  |  |  |

5. Which best describes the amount of time you were able to spend on each other following during school suspensions? (segmented by teachers using and not using hybrid learning)

|  | Much <br> more <br> than <br> before | Somewhat <br> more than <br> before | About <br> the same <br> as before | Somewhat <br> less than <br> before | Much less <br> than before | Responses |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Academic instruction |  |  |  |  |  |  |

$\left.\begin{array}{|l|l|l|l|l|l|l|}\hline \begin{array}{l}\text { No hybrid } \\ \text { learning in } \\ \text { school/idk }\end{array} & 2 & 5.1 \% & 5 & 12.8 \% & \begin{array}{l}14 \\ \text { Count }\end{array} & \\ \text { Row \% }\end{array}\right)$

Provide in-class academic support

| No hybrid <br> learning in <br> school/idk | 2 | $5.4 \%$ | 13 | 7 |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Count |  |  |  |  |  |  |

Professional development and/or school-based planning on curriculum adjustment

| No hybrid learning in school/idk <br> Count <br> Row \% | $\begin{aligned} & 2 \\ & 5.3 \% \end{aligned}$ | $\begin{aligned} & 13 \\ & 34.2 \% \end{aligned}$ | $\begin{aligned} & 13 \\ & 34.2 \% \end{aligned}$ | $\begin{aligned} & 10 \\ & 26.3 \% \end{aligned}$ | $\begin{aligned} & 0 \\ & 0.0 \% \end{aligned}$ | 38 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
